

**ANGLO
COAL**

Media Release

We are a proud resource company adding value to Australia and the world.

As a good corporate citizen we deliver sustainable business returns and growth to our shareholders through providing 'quality tonnes' of coal to our customers.

We are passionate about our relationships, especially with our people. We demonstrate trust, honesty, openness, integrity and humility.

We strongly value teamwork, coaching and developing our people and their careers.

We celebrate our successes.

ACA'S CALLIDE MINE DONATES TO HELP LOCAL SCHOOLS

On Friday 29 May 2009 Anglo Coal Australia's (ACA) Callide Mine representatives were at the Biloela Community Resource Centre to hand over 43 computer hard drives they have donated to local organisations and schools.

Callide Human Resource Manager Sandra Thomson said Callide Mine had engaged with local organisations to determine the best use for the computer hard drives after a routine upgrade of the mine's computer hardware.

"We approached a number of organisations in our region with a work focus closely aligned with ACA's sponsorship priorities for the 2009 period, where commitment is being given to education and health based initiatives," Sandra said.

"The organisations we have selected for the donations each play a vital role in enabling community growth and providing support services, so it is pleasing to know others will benefit from the donation.

"The schools will be using the computers for educational purposes, which will support the development of students and young people in Callide's area of operation, the Dawson and Callide Valleys."

Schools and organisations benefiting from the donation included:

- Anglicare
- Banana Shire Support Centre
- Endeavour Foundation – Biloela respite services
- SES – State Emergency Service
- Biloela Child Care Centre Inc
- Jambin State Primary School
- Prospect Creek State Primary School
- Redeemer Primary School
- PCYC
- Goovigen State Primary School
- Biloela State Primary School
- Community Resource Centre.
